ExitSentry
by CheckVideo

The Industry's #1 Airport Exit Lane Security Solution.

10 Million Hours of Operation • More than 50 Airports • Improves Security • Lowers Costs

REDUCED COSTS

TSOs and others can be assigned to higher-value tasks at larger airports, frees up enough labor to open additional checkpoint lanes.

STRONGER SECURITY

Uses video and audio alarms to detect people trying to access the exit lane from the wrong direction

Applies advanced analytics to identify intruders and mitigate false positives

Operates with TSA approval: staff not required at ExitSentry-powered exit lanes

Locks doors to contain potential breaches

Provides immediate video evidence (instant replay) for law enforcement

Time- and date-stamped storage

CUSTOMIZABLE

Lanes can be moved or re-configured as needed by the airport to:

✓ Improve throughput
✓ Accommodate growth
✓ Expand retail

Lanes are finished to your specs: there are no pre-existing requirements for:
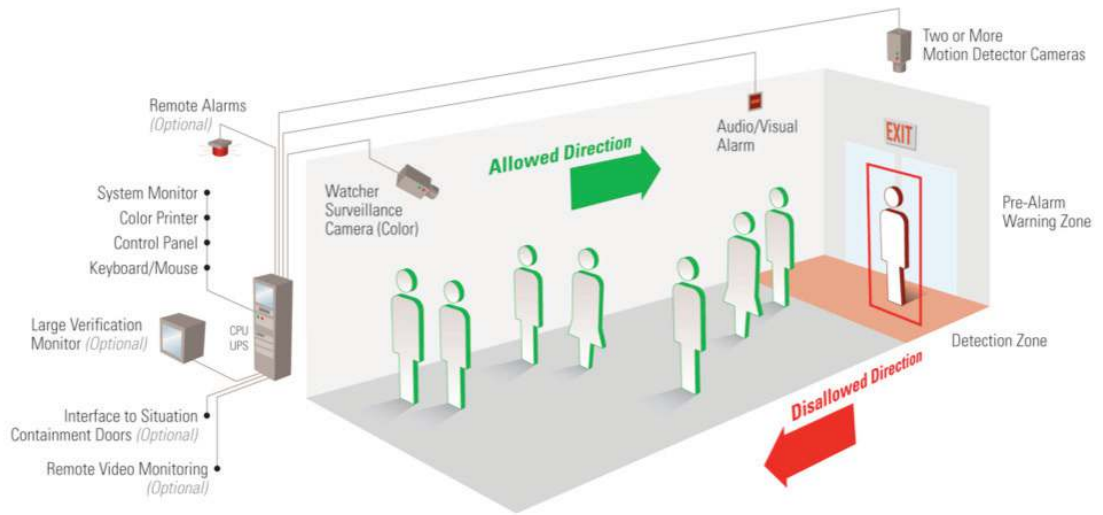

✓ Corrals
✓ Doors
✓ Locks

Lanes are fully integrated:

✓ PACS
✓ SOCs
✓ Other Video Packages
✓ Training takes 15 minutes or less
✓ Provides reliability, enunciation, containment, loud alarms, locking doors, and video evidence

HOW IT WORKS

ExitSentry applies advanced video analytics technology to immediately catch any individual attempting to enter an exit lane from the wrong direction, or an object thrown in the wrong direction.
