

Manufacturing: Smart Security Solutions

Increase Safety and Security for Manufacturing.

CheckVideo is a comprehensive solution that not only protects your manufacturing facilities virtually but helps to protect your bottom line. With **advanced video analytics** technology, CheckVideo can alert a security guard or law enforcement and prevent crimes before they escalate. From parking lots to the manufacturing floor and loading zones, **CheckVideo watches and prevents crime while other cameras just record**. Offering unlimited users and a video search engine, CheckVideo helps you run your manufacturing facilities more effectively.

FEATURES

- ✓ Video Analytics
- ✓ Offsite Video Backup
- ✓ Instant Search
- ✓ Push Notifications
- ✓ Health Monitoring
- ✓ No Servers

REDUCE OVERALL SECURITY COSTS - The cost of paying a guard to physically patrol your manufacturing facility is often more expensive compared to the affordable costs of implementing a virtual guard system.

LIMIT LIABILITY & SAFETY VIOLATIONS - Find, review, and export footage such as work place accidents.

MONITOR SHIPMENTS & EQUIPMENT - Manage and track personnel, deliveries, and activity. With push notifications to your mobile phone CheckVideo can alert you to shipments coming in. Find footage in seconds with CheckVide's revolutionary search engine.

MANAGE MULTIPLE LOCATIONS - With the power of the cloud and video analytics, a single person can watch tens or even hundreds of cameras over multiple locations.
